

Anchit Bhushan

Work Experience

Infosys Limited

Senior Associate Consultant (*Helix*)

Bengaluru, India

August 2024 – Present

- Developed **8 microservices** exposing around **60 endpoints** across the domains of **Infosys Helix**, a multi-tenant US healthcare platform, delivering **Member Portal**, **Producer Portal**, and **Group IVR** for a large US healthcare client.
- Designed high-throughput bidirectional data pipelines between **SFTP** and **Azure** using **Spring Scheduler**, processing **~10K EDI 834** files daily with robust error handling and reliability.
- Orchestrated containerized deployments using **Docker** and **Kubernetes**, implementing **Helm**-based release management and leveraging ConfigMaps and Secrets for secure multi-environment deployments.
- Led **code reviews** for 3 engineers, enforcing style guidelines, testability, accuracy, and Clean Code principles to maintain software quality.
- Triaged and resolved production system issues by analyzing root causes across service, network, and infrastructure layers, tracking defects to closure and minimizing operational impact.

FIS Solutions (India) Private Limited

Software Engineer (*Global Plus – Wealth Management*)

Bengaluru, India

July 2021 – Jan 2024

- Enhanced inbound and outbound **SWIFT** message processing for Standards Update 2023 using **Java** and **Spring**, ensuring compliance and reliability for distributed financial operations across multiple global banking clients.
- Debugged and resolved complex defects in **C** and **FORTRAN** within a **UNIX** environment for a large-scale Wealth Management platform, analyzing issues at the system and network layers to restore service quality.
- Designed and implemented a dual push mechanism to export files between **Windows Server**-hosted **.NET** applications via **XML**, improving cross-server data transfer reliability.

Accenture Solutions Pvt Ltd

Application Development Associate (*OSISoft PI*)

Bengaluru, India

November 2020 – April 2021

- Completed training in **C**, **Java**, **Python**, **SDLC**, **Agile**, and **DevOps**, building a strong foundation across full-stack development and modern engineering practices.
- Provided application support for real-time manufacturing data collection using **OSISoft PI Data Historian** for a pharmaceutical client, ensuring data integrity and system continuity.

Datalore Labs Private Limited

Machine Learning Intern

Bengaluru, India

July 2019 – August 2019

- Predicted the probability of Parkinson's disease from audio feature samples using multiple ML models, including KNN, Logistic Regression, Decision Tree, and Random Forest.
- Improved prediction accuracy from **89.79%** to **99.04%** by tuning a Decision Tree classifier.

Skills

Languages: Java, Python, C, C++, FORTRAN

Tools / Services: Git, Docker, Kubernetes, Azure, Helm, SFTP, EDI, XML, .NET, CI/CD

Libraries / Frameworks: Spring / Spring Boot

Concepts: Distributed Systems, Large-Scale System Design, Software Architecture, REST APIs, Microservices, Data Structures & Algorithms

AI / Developer Tools: GitHub Copilot, Claude Code

Education

Dayananda Sagar Academy of Technology & Management (DSATM)

Bengaluru, India

B.E., Information Science & Engineering | CGPA: 7.51/10

2016 – 2020

Honors & Achievements

2025 At Infosys Ltd., received a certificate for exceptional dedication, outstanding contributions, and exemplary performance.

2022 At FIS Solutions (India) Pvt. Ltd., received a Kudos award for singlehandedly delivering the IV Gen3 server migration.
