Work Experience

Infosys Limited

Bengaluru, India

Senior Associate Consultant (Helix)

August 2024 – Present

- Designed and developed enterprise-grade **RESTful** API services using **Java** and **Spring Boot**, powering cross-domain **microservices** architectures with high availability and low latency across distributed systems.
- Architected high-throughput, fault-tolerant enterprise data pipelines (**SFTP-to-Azure**) using **Spring Scheduler** with concurrent processing of **~10K EDI 834** files daily, ensuring reliability and data integrity at scale.
- Orchestrated secure, containerized enterprise deployments via **Docker** and **Kubernetes** with **Helm**-based release management; enforced security best practices using ConfigMaps and Secrets across multi-environment setups.
- Led **technical design reviews** and **code reviews**; mentored 3 engineers, driving adoption of Clean Code principles and elevating team-wide code quality and maintainability.

FIS Solutions (India) Private Limited

Bengaluru, India

Software Engineer (Global Plus – Wealth Management)

July 2021 – Jan 2024

- Built and maintained scalable, enterprise-grade financial applications supporting distributed **SWIFT** message processing (Standards Update 2023), serving multiple global banking clients with strict compliance and reliability requirements.
- Delivered concurrent-safe enhancements and bug fixes in **C** and **FORTRAN** on a **UNIX** Wealth Management platform, improving system stability and performance under high load.
- Designed and implemented a distributed dual push mechanism for cross-server file transfer between **Windows Server**-hosted **.NET** applications via **XML**, improving data transfer reliability and decoupling service boundaries.

Accenture Solutions Pvt Ltd

Bengaluru, India

Application Development Associate (OSISoft PI)

November 2020 – April 2021

- Completed training in **C**, **Java**, **Python**, **SDLC**, **Agile**, and **DevOps**, building a strong foundation across full-stack development and modern engineering practices.
- Provided application support for real-time manufacturing data collection using OSISoft PI **Data Historian** for a **Pharmaceutical** client, ensuring data integrity and system continuity.

Datalore Labs Private Limited

Bengaluru, India

Machine Learning Intern

July 2019 – August 2019

- Predicted the probability of Parkinson's Disease from audio feature samples using multiple ML models including KNN, Logistic Regression, Decision Tree, and Random Forest.
- Improved prediction accuracy from **89.79%** to **99.04%** by tuning a Decision Tree classifier.

Skills

Languages: Java, Python, C, C++, FORTRAN

Tools / Services: Git, Docker, Kubernetes, Azure, Helm, SFTP, EDI, XML, .NET

Libraries / Frameworks: Spring / Spring Boot, Microservices, REST APIs, Concurrent Programming

Concepts: Distributed Systems, Enterprise Architecture, API Platform Design, DB Schema Design, Data Caching, Application Security

AI / Developer Tools: GitHub Copilot, Claude Code

Honor & Achievements

2025 At Infosys Ltd. Bangalore, Received certificate for exceptional dedication, outstanding contributions and exemplary performance.

2022 At FIS Solutions (India) Pvt. Ltd. Bangalore, Received Kudos award for sole contribution towards IV Gen3 Server migration.
