- Datalore Labs Private Limited** Bengaluru, India
Intern July 2019 – August 2019
 - Predicted the probability of Parkinson's Disease based on different audio sampled features
 - ifferent models such as KNN, KNN Grid Search, Logistic Regression, Tree Classifier, and Random Forest Classifier were used to increase the accuracy of prediction.
 - The prediction accuracy increased from **89.79 %** to **99.04 %**, which was achieved using the tree classifier.

Education

- DSATM Bangalore** 2020
Bachelor of Engineering, Information Science & Engineering 7.51/10
- D.A.V Public School, Talwandi, Kota** 2015
All India Senior School Certificate Examination 66.67%
- D.A.V Public School, Hazaribagh** 2013
All India Secondary School Examination 10.0/10.0

Projects

- Student Database Management System** DSATM Bangalore
Self motivated, Advisor : Asst. Prof. Mrs. Nagarathna C R Sep 2018 - Nov 2018
 - Supported **CRUD** operations through API to read and modify student details from a web based student database portal.

- Technologies Used: **HTML**, **CSS**, **Javascript**, and **PHP**.

- **Periodic Table**

DSATM Bangalore

Guide : Asst. Prof. Mr. Karthik S A

March 2019 – May 2019

- Developed a Desktop-based GUI application in **Java** that can provide the information corresponding to each element in the periodic table.
- Stored the elements of the periodic table using **B-Trees** to improve upon the Insert and Delete operations
- Used **serialization** to persist the data in to file system.

- **Honeypot : Intrusion Detection System**

DSATM Bangalore

Guide : Dean Academics Dr. Sumithra Devi K A

Sep 2019 – Aug 2020

- A web based GUI application to track the origin of real time **ssh** , **telnet**, and **ftp** attacks on a system.
- Implemented support for tracking multiple attack types from various protocols.
- Technologies Used: Used **Node.js**, **HTML**, and **CSS**

Publications

IJISRT Volume 5 - 2020, Issue 3 - March
